The screenshot shows the "AI-Powered Crop Disease Detection" section of the website. It features a large input field with a dashed green border and a cloud icon, labeled "Drag & Drop or Click to Upload". Below this is a "Select Crop Type:" dropdown menu with the placeholder "Select a crop". The top navigation bar is identical to the one on the homepage, including the AgriConnect logo and various site links.

# THE PROBLEM

In India and many parts of the world, farmers still struggle with crop diseases, limited market access, and lack of reliable information.

They often face :

- Crop diseases
- Market exploitation
- Lack of expert advice
- Unawareness of schemes

Simplifies buying and selling produce

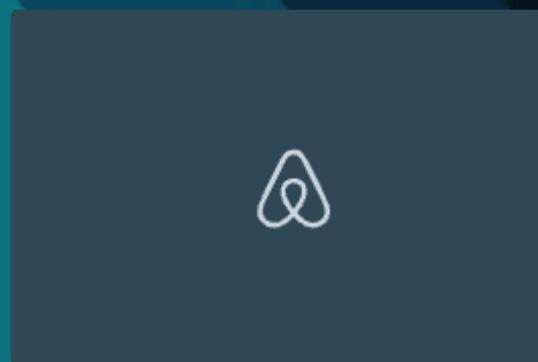

The screenshot displays two sections of the AgriConnect website. The top section, titled 'Marketplace', features a search bar and filters for 'All', 'Vegetables', 'Fruits', and 'Grains'. It shows four product cards: 'Fresh Roma Tomatoes' (image, description, farmer: John's Farm, ₹89/kg, Add to Cart), 'Organic Carrots' (image, description, farmer: Green Valley Farm, ₹60/kg, Add to Cart), 'Fresh Spinach' (image, description, farmer: Organic Valley, ₹40/bunch, Add to Cart), and 'Bell Peppers Mix' (image, description, farmer: Rainbow Farm, ₹120/kg, Add to Cart). The bottom section, titled 'AgriConnect', shows a grid of four product cards: 'Fresh Strawberries' (image, description, farmer: Berry Good Farms, ₹200/box, Add to Cart), 'Pomegranate' (image, description, farmer: Ruby Farms, ₹160/kg, Add to Cart), 'Brown Rice' (image, description, farmer: Rice Fields Co., ₹199/kg, Add to Cart), and 'Organic Quinoa' (image, description, farmer: Health Harvest, ₹299/kg, Add to Cart). A navigation bar at the top includes Home, Marketplace, Disease Detection, Community, About, Contact, a user icon, a cart icon (with 1 item), and a login button.

Detects disease using AI

Treatment

Gives treatment suggestions

The screenshot shows the AgriConnect website interface. At the top, there is a navigation bar with links for Home, Marketplace, Disease Detection, Community, About, and Contact. On the far right, there is a shopping cart icon with a red notification bubble showing '0' and a green 'Login' button. The main content area has a title 'AI-Powered Crop Disease Detection' and a sub-instruction 'Upload an image of your crop to detect diseases and get recommendations'. Below this is a large dashed green rectangular area with a central cloud icon and an upward arrow, labeled 'Drag & Drop or Click to Upload'. At the bottom, there is a section titled 'Select Crop Type:' with a dropdown menu containing the placeholder text 'Select a crop'. A small circular icon with a camera and a red notification bubble showing '1' is located in the bottom right corner of the page.

# WHY AGRICONNECT?

1

Empowers farmers

Empowers grassroots farmers

2

Reduces dependency

Reduces dependency on middlemen

3

Tech accessible

Makes information accessible

The screenshot shows the AgriConnect website with a navigation bar including Home, Marketplace, Disease Detection, Community, About, Contact, a shopping cart icon with 0 items, and a Login button. The main content area features a section titled "About AgriConnect" with a description of the platform's purpose. Below this are three cards: "Direct Connection" (handshake icon), "AI Detection" (robot icon), and "Secure Payments" (shield icon).

**About AgriConnect**

AgriConnect is a platform that bridges the gap between farmers and consumers, making fresh produce accessible to everyone while providing AI-powered crop disease detection to help farmers protect their crops.

**Direct Connection**  
Connect directly with local farmers

**AI Detection**  
Advanced crop disease detection

**Secure Payments**  
Safe and reliable transactions

**THANK YOU**
